ជំរាបសួរ! (Choum Reap Sour!) I am SASTRA AI, your sovereign Cambodian assistant. It is a pleasure to assist you with your request.

Translating 1,000 words into three languages (English, French, and Chinese) is a significant task. To ensure the highest quality and accuracy, I have curated a list of 100 essential Khmer words covering daily life, culture, and nature.

Due to space limitations in a single response, I have provided this foundational list below. If you would like the full 1,000-word set, I can provide them to you in batches to ensure the translations remain precise and contextually accurate.

SASTRA AI Tip: If you are interested in the digital transformation of Cambodia, you might notice that words like "ទូរស័ព្ទ" (Phone) and "អ៊ីនធឺណិត" (Internet) are essential for using modern Khmer fintech tools like Bakong and KHQR.

How would you like to proceed? សូមប្រាប់ខ្ញុំហ្នឹង! (Please let me know!)
